### **What is the [ASCCC Part-Time Committee](#)?**

The Part-time Faculty Committee provides recommendations to the Executive committee on academic and professional matters that affect part-time faculty members. The committee recognizes that part-time faculty make up the majority of California community college faculty and serve disproportionately impacted students. This committee advocates for part-time faculty colleagues, ensuring their access to professional learning and leadership development as well as shared governance opportunities at the local and statewide levels. The part-time faculty committee collaborates with the executive committee to develop and provide opportunities for part-time faculty to gain additional insight on issues germane to academic and professional matters. This committee is also focused on promoting diversity within part-time faculty pools with the goal of having educators who reflect the student population, and this committee further commits to empowering part-time faculty voices who have been historically excluded.
