improve the surveys page on the ASCCC website, to include a description of the surveys, to provide the raw survey results data, and a standardized analysis of the results. The committee also recommended that the Local Senates Profile Survey be conducted every two years. The committee considered the merits and pitfalls of disclosing raw data widely and the concern of misrepresentation and discussed the value of a designated researcher to design surveys and analyze the results.

Bruno tasked the Standards and Practices Committee to bring recommendations in the fall to the Executive Committee regarding the survey creation process and analysis and dissemination of the results.

MSC (Aschenbach/Foster) to approve conducting a Local Senates Profile Survey biennially on odd years.
