“Assessment, in essence, takes our natural curiosity about our work’s effectiveness and puts it in a systematic framework, where we explicitly articulate what we hope a student participating in a program will take away from the experience” (Bresciani, 2011)
Student Service/Academic Support Outcomes: A New Perspective

Amanda Ryan-Romo
Learning Center & Language Lab Director
East Los Angeles College
How do Service and Support Areas interact with students?
Service and Support Units conduct business with students in two ways:

- Providing a tangible.
- Increasing the likelihood of a student doing something.
II.C.1. The institution regularly evaluates the quality of student support services and demonstrates that these services, regardless of location or means of delivery, including distance education and correspondence education, support student learning, and enhance accomplishment of the mission of the institution.

II.C.2. The institution identifies and assesses learning support outcomes for its student population and provides appropriate student support services and programs to achieve those outcomes. The institution uses assessment data to continuously improve student support programs and services.
If we can’t use Bloom’s taxonomy, what do we use?

Anderson and Krathwohl (2001) explain that their revision of Bloom’s taxonomy focuses on the cognitive domain.

Service is in the affective domain.

What data can SAOs/ASOs use?

Qualitative data will work the best!
Saunders and Wohlgemuth (2009) suggest that service and support areas “[maximize] use of existing data in ways that demonstrate the value of student affairs efforts” (p. 23).
Focus on customer service

Cooper (2009) lists several other approaches to assessment for service and support units:

- Surveys and questionnaires
- Interviews
- Focus groups
- Observations
- Document review
Learning Center ASOs & Assessments

The LC delivers outstanding customer services that meets the individual needs of each student.

The Learning Center encourages students to be self-directed, independent learners.

SWOT analysis throughout semester + Customer Service rubric ratings on survey.

Tutor report throughout semester.
Where do SSOs appear on your assessment tree?

What’s the assessment hierarchy? Where do you collect data?
Q & A
Discussion

Thanks!
